# Driven by Craft. Defined by Legacy.

## BACKING OUR BUILDS

3 Year / 36,000 Mile Warranty

Performance & Comfort Come Standard

Careful inspection and Quality Control

Hold Value Longer Than Standard Models

## HOW WE WORK

As the oldest privately held family bailment pool, we are trusted by leading manufacturers to complete their vehicles for final retail. We are a factory-authorized and approved upfitter. We are also an approved Qualified Vehicle Modifier (QVM) and a member of the NTEA. Sherrod Customs transforms the everyday driver into a unique custom conversion that sets each Sherrod Truck apart from the rest. All of this is created in our 100,000 square foot manufacturing plant in Georgia and shipped directly to your dealership.

When you purchase a Sherrod truck, we understand the value and service we must provide. Each customization for our lifted trucks is built by American workers. We firmly believe in the roots upon which this country is founded, and each team member works together to "Build the best." We pour a significant portion of our proceeds back into research and development, so we stay on top of cutting-edge engineering ideas and techniques to offer you the ultimate luxury and performance.

Each vehicle is meticulously examined and tested for quality and safety before it leaves our location. We are firm believers in building lifelong relationships, and have many customers who are loyal to us through generations of vehicle owners. We want to assure that each vehicle we build will stand the test of time and serve its owners well throughout the years to come.
